

SMARTHINKING FOR OSCEOLA SCHOOL DISTRICT STUDENTS

Osceola high school students now have access to free SMARTHINKING online tutoring services as part of an innovative college readiness program. SMARTHINKING connects students to e-structor®-certified tutors for assistance in math, writing, science, and business on any Internet-connected computer.

The SMARTHINKING service helps students succeed in their current courses, be better prepared for college coursework, and become comfortable with online learning.

When a student needs help, they can visit the SMARTHINKING website for free at www.smarthinking.com and log in to their own account using their personal username and password they get from the school. Students can choose between two options:

- **Live one-on-one help:** Students can work online live with an expert tutor in a variety of different subject areas for homework help and studying.
- **Help writing papers:** Students can access the help of SMARTHINKING writing instructors who are prepared to provide feedback on how to improve their papers.

By implementing the SMARTHINKING online tutoring service for high school students, will expand their toolkit of resources designed to help students achieve at higher levels, the experienced tutors at SMARTHINKING will provide the students extra assistance in improving basic skills 24 hours a day, 7 days a week, free of charge. We at Celebration High School encourage parents and students to utilize this extremely valuable resource.

Each student receives 300 minutes of free online tutoring. If a student uses all this time they need to see their Guidance Counselor who will help them receive additional time.

All you need to do is go to <http://www.smarthinking.com/> and click Log In.
